Kristopher is an experienced executive coach, HR Leader, and talent development consultant with a history of leading individuals and organizations through change of varying size and scope. He understands the nuances of talent development, executive coaching, and DEIB – and their intricate role within the broader business environment. With a value-added mindset and always with an eye to the future, Kristopher continually engages his clients as a true growth driver, value creator, and business partner.

Kris has spent his career working for and partnering with public, private, and non-profit organizations of various sizes with a particular focus in the technology, financial services, education, and non-profit sectors. Kris has sharpened his coaching approach through hundreds of hours of working with leaders from around the globe for over 15 years. He has found particular success when working with transitioning senior executives, storming leadership teams, and growing executive coaches. He brings deep leadership expertise, practical application, and data driven feedback to support his clients. Coaching clients describe Kris as flexible, present centered, insightful, and feedback driven. They often comment on his ability to balance challenging questions with empathy and encouragement.

His collective efforts continue to support his calling to connect & cultivate organizations and individuals.
